INDEPENDENT AUDITOR'S REPORT

To the Mayor and City Council City of Leadville, Colorado

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Leadville, Colorado (the "City"), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Leadville, Colorado as of December 31, 2020, and the respective changes in financial position for the year then ended in accordance with U.S. generally accepted accounting principles.

INDEPENDENT AUDITOR'S REPORT To the Mayor and City Council City of Leadville, Colorado

Other Matters

U. S. generally accepted accounting principles require that the Management's Discussion and Analysis in Section B and the Schedule of the City's Proportionate Share of the Net Pension (Asset) Liability, the Schedule of Changes in Net Pension (Asset) Liability, and the Schedules of City Contributions in Section E, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Management's Discussion and Analysis in Section B and the Schedule of the City's Proportionate Share of the Net Pension (Asset) Liability, the Schedule of Changes in Net Pension (Asset) Liability, and the Schedules of City Contributions in Section E in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

The budgetary comparison schedules in section E are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The *Local Highway Finance Report* listed in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. The *Local Highway Finance Report* is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

City of Leadville, Colorado Management's Discussion and Analysis December 31, 2020

As management of the City of Leadville, Colorado, (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2020.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements include three components: 1) government-wide financial statements; 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all City assets and deferred outflows of resource and liabilities (both short-term and long-term) and deferred inflows of resources, with the difference between reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave). The Statement of Activities focuses on long-term economic resources and is reported on a full accrual basis.

The Statement of Activities identifies functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the City include general government, public safety, judicial (court), public works (streets and maintenance), and parks and recreation.

The government-wide financial statements include not only the City itself (known as the primary government), but also the legally separate Leadville Urban Renewal Authority (the "LURA"). The LURA is reported as a blended component unit of the City (as a special revenue fund).

The government-wide financial statements can be found on pages C1 and C2 of this report.

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City are governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Reconciliations are provided on pages C4 and C6 to facilitate this comparison between governmental funds and governmental activities.

Overview of the Financial Statements (continued)

Fund Financial Statements (continued): The City maintains three individual governmental funds, all of which are considered to be major funds. Information is presented separately for each fund in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances. Basic governmental fund financial statements can be found on pages C3 and C5 of this report.

The City adopts annual appropriated budgets for all governmental funds. A budgetary comparison schedule has been provided for the General, Conservation Trust, Fire Operations Funds, and the Leadville Urban Renewal Authority, a blended component unit, to demonstrate compliance with State budget statutes. These budgetary comparison schedules are found in section E of this report.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found in Section D of this report.

Government-wide Financial Analysis:

The following chart shows the City's assets, liabilities, and net position at December 31, 2020 and 2019:

	Governmental Activities		
	2020	2019	
Assets:			
Current and other assets	\$ 3,617,589	\$ 3,039,629	
Capital assets, net	3,183,228	2,438,396	
Total Assets	6,800,817	5,478,025	
Deferred Outflows of Resources:			
Pension related deferred outflows	568,884	650,932	
Total Deferred Outflows		030,932	
of Resources	568,884	650,932	
Liabilities:			
Other liabilities	264,978	444,198	
Long-term liabilities	404,799	572,320	
Total Liabilities	669,777	1,016,518	
Deferred Inflows of Resources:			
Pension related deferred inflows	175,833	23,540	
Unavailable revenue	715,683	715,892	
Total Deferred Inflows			
of Resources	891,516	739,432	
Net Position:			
Net investment in capital assets	2,835,714	2,142,744	
Restricted	254,520	158,450	
Unrestricted	2,718,174	2,071,813	
Total Net Position	\$ 5,808,408	\$ 4,373,007	

Total assets of the City increased \$1,322,792 during the past year. Cash and investments increased \$190,031 during the past year and corresponds to the change in fund balance offset by the increase in receivables and the decrease in non-pension liabilities. Capital assets increased by \$744,832 during the past year. This net increase in capital assets approximates capital additions of \$1,040,534 less disposals of \$143,315 and depreciation of \$288,287. Capital asset additions during the past year were related primarily to the purchase of equipment and vehicles for the police and fire departments.

Government-wide Financial Analysis: (continued)

Total liabilities of the City decreased \$346,741 from the previous year. This decrease is primarily attributed to principal payments on long-term debt and a reduction in net pension liability for the City's defined benefit pension plans.

Long-term liabilities are comprised of accrued compensated absences and capital leases. Accrued compensated absences increased \$17,515 between 2019 and 2020. Another change to liabilities is the net pension liability which decreased \$289,328.

Approximately 49% of the City's net position reflects its investment in capital assets (i.e. land, infrastructure, buildings, vehicles, and equipment less accumulated depreciation and related debt), representing a 32% increase from 2019. The City uses these assets to provide services to its citizens. Accordingly, these assets are not an available source for payment of future spending. Of the remaining net position of \$2,972,694, \$125,000, \$78,201, and \$51,319 has been restricted for emergencies, net pension assets, and recreation, respectively. The remaining balance of \$2,718,174 may be used to meet the City's ongoing obligations relating to its operations.

Consistent with the prior year, the City is able to report positive balances in all three categories of net position.

The following chart summarizes financial information relating to the City's Statement of Activities:

	Governmental Activities		
	2020 2019		
Revenues:			
Program revenues:			
Charges for services	\$ 643,974	\$ 332,073	
Operating grants and contributions	1,328,775	1,351,210	
Capital grants and contributions	565,722	-	
General revenues:			
Property taxes	711,540	517,858	
Sales taxes	2,305,217	1,908,881	
Other taxes	456,782	375,687	
Gain on disposal of capital assets	-	31,883	
Interest and other revenue	46,041	71,456	
Total Revenues	6,058,051	4,589,048	
Expenses:			
General government	1,003,923	931,761	
Cultural enhancement	220,029	20,029	
Judicial	31,091	40,507	
Parks and recreation	38,491	26,740	
Public safety	2,704,431	2,368,949	
Public works	624,685	629,183	
Total Expenses	4,622,650	4,017,169	
Change in Net Position	1,435,401	571,879	
Net Position - Beginning	4,373,007	3,801,128	
Net Position - Ending	\$ 5,808,408	\$ 4,373,007	

Government-wide Financial Analysis: (continued)

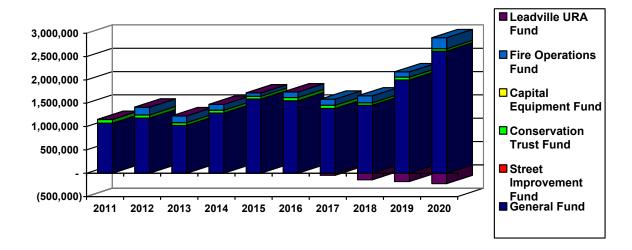

The City's net position increased \$1,435,401 during 2020. Key elements of the change in net position are as follows:

- Sales tax and property tax revenues increased \$396,336 and \$119,682, respectively due to favorable economic conditions after the COVID-19 pandemic.
- Capital grants and contributions increased \$565,772 due to approximately \$510,000 in grant funding for Tabor Opera renovations
- Overall expense increased \$598,314, which is mainly attributable to an increase in public safety expenses by \$335,482.

Financial Analysis of the City's Funds

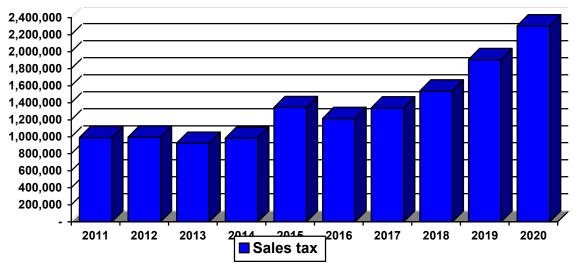

Governmental Funds: The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$2,700,024, an increase of \$704,960 from the prior year ending fund balances. Unassigned balances at December 31, 2020 were equal to 37% of aggregate 2020 expenditures, which represents a 4% decrease from the percentage reported for 2019. Aggregate City fund balances for the past ten years are presented in graph below. Note in 2011 the Capital Equipment and Street Improvement Funds were closed into the General Fund due to reporting requirements.

Financial Analysis of the City's Funds (continued

Sales Tax: The City's main funding source is sales tax. An increase in sales tax from 2019 of \$396,336 was primarily due to an improved economy following the COVID-19 pandemic. The following chart indicates changes in the sales taxes.

Budget Variances in the General Fund: As mentioned on page B2 of this analysis, the City uses fund accounting to ensure and demonstrate compliance with State budget statutes. Significant variances between final budget and actual amounts for the General Fund were as follows:

\/--!---

Account	Variance Positive (Negative)	Reason
Revenues:	_	
Sales tax	795,217	Conservative budgeting for revenue.
Other taxes	104,416	Marijuana taxes growth higher than expected.
Grant revenue	(457,280)	Did not receive \$500,000 budgeted national parks grant due to project timing.
Donations and contributions	(476,431)	Budgeted for full grant awarded and Tabor Opera renovations is still underway.
Expenditures:		
General government - general operating	1,561,153	Certain budgeted expenditures included in this line, while actual expenditures are in <i>Capital outlay</i> line; also conservative spending and budgeting.
Capital outlay	(710,382)	Budgeted expenditures are in the <i>General government - general operating</i> line and unbudgeted lease expenditures.
Lease proceeds	212,959	Unbudgeted equipment lease proceeds.

Capital Assets and Debt Administration

Capital Assets: The City's capital assets increased by approximately \$744,832 during the past fiscal year. Additional information as well as a detailed classification of the City's capital assets can be found in the Notes to the Financial Statements in section D of this report.

Long-term Debts: The City's long-term debt obligations decreased \$167,521 from December 31, 2019, excluding the changes in balances due within one year. This change is detailed by a decrease of the net pension liability of approximately \$289,328, an increase in accrued compensated absences of approximately \$17,515, and a net increase in capital leases of \$51,862. Additional information can be found in the Notes to the Financial Statements on section D of this report.

Economic Factors and Next Year's Budget:

The City's General Fund balance at the end of the current fiscal year was \$2,632,324. The City's 2021 General Fund budget does not anticipate use of beginning fund balance.

Request for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Leadville, City Treasurer, 800 Harrison Avenue, Leadville, Colorado 80461.

NOTES TO THE FINANCIAL STATEMENTS

City of Leadville, Colorado Notes to the Financial Statements December 31, 2020

I. Summary of Significant Accounting Policies

The financial statements of the City of Leadville (the "City") have been prepared in conformity with generally accepted accounting principles ("GAAP") as applied to government units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The City is incorporated under the laws of the State of Colorado and operates under an elected Mayor-Council form of government. The financial statements of the reporting entity include those of the City (the primary government) and any component units for which the City is financially accountable. The City is considered financially accountable for legally separate organizations if it is able to appoint a voting majority of that organization's governing body, if it is able to impose its will on that organization, or if there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the City. Consideration is also given to other organizations that are fiscally dependent upon the City; that is, organizations that are unable to adopt a budget, levy taxes, or issue debt without approval by the City. Finally, organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are also included in the reporting entity.

The City's blended component unit is the Leadville Urban Renewal Authority (the "LURA") is a separate entity created under Colorado Urban Renewal Law to provide for acquisition, clearance, rehabilitation, conservation, development, or redevelopment of property in the interest of public health, safety, morals, or welfare of the residents of the City. The boundaries of the LURA shall be coterminous with those of the City. The LURA will consist of eleven members as follows: the City's Mayor and council members, an at large member appointed by the Mayor, plus one appointed member each from the Lake County Board of County Commissioners and the Lake County School District, with the final seat filled by a member appointed to represent the special districts levying a mill levy with the City. For financial reporting purposes, the LURA is blended into the City's financial statements and is reported in a single special revenue fund as a blended component unit. A separate budget is adopted for the LURA, however separate financial statements of the LURA are not issued.

B. Government-wide and Fund Financial Statements

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's individual funds).

1. Government-wide Financial Statements

The government-wide financial statements report information on all non-fiduciary activities of the City and categorize primary activities as either governmental or business-type. The City's governmental activities include general government, public safety, judicial (court), public works (streets and maintenance) and parks are recreation. The City does not have any business-type activities. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

I. Summary of Significant Accounting Policies (continued)

B. Government-wide and Fund Financial Statements (continued)

1. Government-wide Financial Statements (continued)

In the government-wide Statement of Net Position, the governmental activities columns are (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts: net investment in capital assets, net of related debt; restricted net position, and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the City's functions (public safety, public works, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (public safety, public works, etc.).

Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The net costs (by function) are mostly supported by general revenues (property and sales taxes, interest income, etc.).

The government-wide focus is on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activities.

2. Fund Financial Statements

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that is comprised of its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The fund focus is on current available resources and budget compliance.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The *Conservation Trust Fund* accounts for lottery proceeds required to be expended solely on park and recreation improvements.

The *Fire Operations Fund* accounts for the City's revenue and expenditures relating to the Fire Department operations.

The Leadville Urban Renewal Fund (the "LURA") accounts for the receipt of tax increment revenues and the activities of redevelopment that are undertaken by the LURA, including issuing debt and constructing public improvements.

I. Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

1. Long-term Economic Focus and Accrual Basis

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements. Financial statement presentation refers to classification of revenues by source and expenses by function.

The government-wide financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

2. Current Financial Focus and Modified Accrual Basis

The governmental fund financial statements use the current financial focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter (60 days) to be used to pay liabilities of the current period. Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, if any, is recognized when due.

3. Financial Statement Presentation

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services or privileges provided; 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

D. Financial Statement Accounts

1. Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within 3 months of the date acquired by the City.

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

1. Cash, Cash Equivalents, and Investments (continued)

The City's follows Colorado Revised Statutes which permit investments in the following type of obligations:

- U.S. Treasury Obligations (maximum maturity of 60 months)
- Federal Instrumentality Securities (maximum maturity of 60 months)
- FDIC-insured Certificates of Deposit (maximum maturity of 60 months)
- Corporate Bonds (maximum maturity of 60 months)
- Prime Commercial Paper (maximum maturity of 60 months)
- Eligible Bankers Acceptances
- Repurchase Agreements
- General Obligations and Revenue Obligations
- Local Government Investment Pools
- Money Market Mutual Funds

Investments are stated at fair market value. The City does not currently hold any investments which require fair market valuation.

2. Receivables

Receivables are reported net of an allowance for uncollectible accounts. The City uses the allowance method for recognizing the potential uncollectibility of delinquent accounts receivable. At December 31, 2020, no allowance has been established, as all amounts are considered collectible.

3. Property Taxes

Property taxes are assessed in one year as a lien on the property, but not collected by the governmental units until the subsequent year. In accordance with GAAP, the assessed but uncollected property taxes have been recorded as a receivable and as deferred revenue.

4. Capital Assets

Capital assets, which include land, infrastructure, buildings, equipment, and vehicles, are reported in the government-wide financial statements. Capital assets are defined by the City as assets with an estimated useful life in excess of two years with an initial cost of \$5,000 or more. Purchased assets are recorded at historical cost. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

4. Capital Assets (continued)

Buildings, equipment and vehicles and infrastructure are depreciated using the straight-line method over the following estimated useful lives:

Capital Assets	Years
Buildings	30
Equipment and vehicles	3 - 30
Infrastructure	15 - 20

5. Compensated Absences

For governmental funds, vested and accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources, is reported as expenditures and a fund liability of the governmental fund that will pay it. Vested and accumulated vacation and sick leave not expected to be liquidated with expendable available financial resources are not reported in the governmental fund financial statements. However, these amounts are reported in the government-wide financial statements. In accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulating sick leave benefits that it is estimated to be paid upon termination.

6. Deferred outflows/inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has one item that qualifies for reporting in this category at December 31, 2020 deferred outflows of resources related to its pension obligations which are further described at Notes IV.F.1. and IV.F.2.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items that qualify for reporting in this category. Revenue from property taxes, and pension related items are deferred and recognized as an inflow from resources in the period that the amounts become available. For further details, on the collective deferred inflows related to the City's pension obligations, see Notes IV.F.1. and IV.F.2.

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

7. Pensions

The City participates in the Statewide Defined Benefit Plan (the "SWDB Plan") administered by the Fire and Police Pension Association of Colorado (the "FPPA"). The SWDB Plan is a cost-sharing multiple-employer defined benefit plan. The City also sponsors the firefighter "old hire" single employer defined benefit agent plan. The net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the plans have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

8. Fund Balance

The City classifies governmental fund balances as follows:

Non-spendable - includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements.

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority which is the City Council.

Assigned – includes spendable fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the City Council or its management designee.

Unassigned - includes residual positive fund balance within the General Fund which has not been classified within the other above-mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

The City uses restricted amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the City first uses committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

9. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it that are properly applicable to another fund, are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

10. Restricted Assets

Certain resources of the City are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable agreements.

E. Significant Accounting Policies

1. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the City's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.

2. Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

II. Reconciliation of Government-wide and Fund Financial Statements

A. Explanation of certain differences between the governmental fund Balance Sheet and the government-wide Statement of Net Position

These financial statements include a reconciliation between the total fund balances of all governmental funds as presented on the Governmental Funds Balance Sheet and the net position of governmental activities as reported in the government-wide Statement of Net Position. Additionally, these financial statements include a reconciliation between the total net change in fund balances of all governmental funds as presented on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the change in net position of governmental activities as reported in the government-wide Statement of Activities.

III. Stewardship, Compliance, and Accountability

A. Budgetary Information

Budgets are adopted on a basis consistent with GAAP. Annual appropriations are adopted for all funds. Expenditures may not legally exceed appropriations at the fund level. All appropriations lapse at year-end.

As required by Colorado Statutes, the City followed the required timetable noted below in preparing, approving, and enacting its budget for 2020:

- 1. For the 2020 budget year, prior to August 25, 2019, the County Assessor sent to the City an assessed valuation of all taxable property within the City's boundaries. The County Assessor may change the assessed valuation on or before December 15, 2019, only once by a single notification to the City.
- The Mayor, or other qualified person appointed by the Council, submitted to the Council, on or before October 15, 2019, a recommended budget which detailed the necessary property taxes needed along with other available revenues to meet the City's operating requirements.
- 3. Prior to December 15, 2019, a public hearing was held for the budget, the Council certified to the County Commissioners a levy rate that derived the necessary property taxes as computed in the proposed budget, and the Council adopted the proposed budget and an appropriating resolution that legally appropriated expenditures for the upcoming year.
- 4. After a required publication of "Notice of Proposed Budget", the City adopted the proposed budget and a resolution that legally appropriated expenditures for the upcoming year.
- 5. After adoption of the budget resolution, the City may make the following changes:
 a) it may transfer appropriated money between funds; b) it may approve
 supplemental appropriations to the extent of revenues in excess of estimated
 revenues in the budget; c) it may approve emergency appropriations, and d) it
 may reduce appropriations for which originally estimated revenues are
 insufficient.

Taxes levied in one year are collected in the succeeding year. Thus, taxes certified in 2019 were collected in 2020 and taxes certified in 2020 will be collected in 2021. Taxes are due on January 1st in the year of collection; however, they may be paid in either one installment (no later than April 30th) or two equal installments (not later than February 28th and June 15th) without interest or penalty. Taxes that are not paid within the prescribed time bear interest at the rate of one percent (1%) per month until paid. Unpaid amounts and the accrued interest thereon become delinquent on June 16th.

For the year ended December 31, 2020, the City reported expenditures in excess of appropriations for the following funds:

Fund	 Budget		Actual	Ove	Over Budget	
Fire Operations Fund	\$ 1,646,466	\$	1,697,335	\$	50,869	
Urban Renewal Authority	45,000		54,228		9,228	

III. Stewardship, Compliance, and Accountability (continued)

B. TABOR Amendment

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax, and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of any expiring tax, or tax policy change directly causing a net tax revenue gain to any local government. Any revenues earned in excess of the fiscal year spending limit must be refunded in the next fiscal year unless voters approve retention of such excess revenue.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future fiscal years.

TABOR also requires local governments to establish an emergency reserve to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. The reserve is calculated at 3% of fiscal year spending. Fiscal year spending excludes bonded debt service and enterprise spending. The City has reserved \$125,000 for TABOR, which is the approximate required reserve at December 31, 2020.

On November 7, 2017, the City's voters approved the following ballot question:

"Without creating any new tax or increasing any current taxes, shall the city of Leadville be permitted to retain and spend city revenues derived from any and all sources in excess of the spending or other limitations set forth in Article X, Section 20 of the Colorado Constitution or in Section 29-1-301 of the Colorado Revised Statues, beginning with revenues received in 2017, such excess revenues to be used for any and all municipal purposes?"

The City believes it is in compliance with the financial provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits and qualification as an enterprise, will require judicial interpretation.

IV. Detailed Notes on all Funds

A. Deposits and Investments

The City's deposits are entirely covered by the Federal Deposit Insurance Corporation ("FDIC") or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The FDIC insures the first \$250,000 of the City's deposits at each financial institution. Deposit balances over \$250,000 are collateralized as required by PDPA. The carrying amount of the City's cash was \$2,110,226 at year end. The City had the following cash and investments with the following maturities at December 31, 2020:

	Standard						
	& Poors		Carrying		Less than	Le	ess than
	Rating		Amounts		one year	fi۱	e years
Deposits:							
Petty Cash	Not rated	\$	380	\$	380	\$	-
Checking	Not rated		2,035,708		2,035,708		_
Savings	Not rated		5,424		5,424		
Non-negotiable							
Certificate of deposit	Not rated		68,714				68,714
		\$	2,110,226	\$	2,041,512	\$	68,714

The City has no investments that meet the fair value requirements.

Interest Rate Risk - As a means of limiting its exposure to interest rate risk, the City coordinates its investment maturities closely to match cash flow needs and restricts the maximum investment term to less than five years from the purchase date.

Credit Risk - Colorado statutes specify instruments in which local governments may invest. The City's general investment policy is to apply the prudent-person rule; Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

B. Restricted Cash

Restricted cash and investments consisted of the following at December 31, 2020:

Bail bonds	\$ 2,883
Court surcharge	5,424
Main Street Program	3,162
Police Chief retirement obligation	68,714
Total Restricted Cash	\$ 80,183

IV. Detailed Notes on all Funds (continued)

C. Capital Assets

Capital asset activity for the year ended December 31, 2020 was as follows:

	Beginning Balance	In	creases	De	ecreases	Ending Balance
Governmental activities:						
Capital assets, not being depreciated:						
Land	\$ 100,638	\$	-	\$	-	\$ 100,638
Work in Process	173,075		788,568			961,643
Total Capital Assets, Not	_		_		_	
Being Depreciated	273,713		788,568			1,062,281
Capital assets, being depreciated:	_		_		_	
Infrastructure	511,344		-		-	511,344
Buildings	1,304,688		-		-	1,304,688
Equipment and vehicles	4,328,385		251,966		(143,315)	4,437,036
Total Capital Assets	_		_		_	
Being Depreciated	6,144,417		251,966		(143,315)	6,253,068
Less accumulated depreciation for:						
Infrastructure	(393,341)		(19,670)		-	(413,011)
Buildings	(730,276)		(23,605)		-	(753,881)
Equipment and vehicles	(2,856,117)		(245,012)		135,900	(2,965,229)
Total Accumulated Depreciation	(3,979,734)		(288,287)		135,900	(4,132,121)
Total Capital Assets, Being						
Being Depreciated, Net	2,164,683		(36,321)		(7,415)	2,120,947
Governmental activities						
capital assets, net	\$ 2,438,396	\$	752,247	\$	(7,415)	\$ 3,183,228

The City had capital outlay expenditures and depreciation expense for 2020 as follows:

		Depreciation Expense		Capital Outlay
Governmental activities:	•	,		
General government	\$	1,974	\$	54,599
Cultural enhancement		20,029		643,976
Public safety		122,720		89,993
Public works		143,564		251,966
Total	\$	288,287	\$	1,040,534

IV. Detailed Notes on all Funds (continued)

D. Interfund Activity

1. Internal Balances

Balances due between funds at December 31, 2020 were as follows:

	Due To	D	ue From
General	\$ 246,145	\$	-
Fire Operations	-		13,482
Leadville URA	-		232,663
	\$ 246,145	\$	246,145

The internal balance between the General Fund and Fire Fund is due to temporary cash flow.

The amount payable to the general fund from the LURA is related to costs incurred in the formation of the LURA. This balance is not scheduled to be collected in the subsequent year.

2. Transfers

Transfers made during 2020 were as follows:

	Т	Transfers		Transfers		
		In		Out		
General	\$	-	\$	373,979		
Fire Operations		373,979		-		
	\$	373,979	\$	373,979		

The transfer made from the General Fund to the Fire Fund was the General Fund's subsidy of the fire protection operations.

3. Interfund Loans

During December 2018, the City entered into a promissory note agreement in the amount of \$110,000 to reimburse the expenses of the LURA, bearing interest on the unpaid principal at the rate of 3% per annum. December 3, 2019 the promissory note was amended to increase the loan up to \$224,138. The LURA promises to repay the note in full on or before December 2021. As of December 31, 2020, the balance of the note was \$232,663 including principal and interest.

IV. Detailed Notes on all Funds

E. Long-term Liabilities

1. Capital Leases

The City has entered into the following leases:

Police Vehicles:

- a. On May 6, 2016, the City entered into a lease purchase agreement for three police vehicles in the amount of \$108,314, bearing interest at 5.45%. Lease payments of \$2,518 are due monthly on the 6th through April 6, 2020.
- b. On August 1, 2016, the City entered into a lease purchase agreement for two police vehicles in the amount of \$52,400, bearing interest at 5.45%. Lease payments of \$1,006 are due monthly on the 1st through July 1, 2021.

Loader: On October 9, 2014, the City entered into a seven-year lease purchase agreement for a loader in the amount of \$168,035, bearing interest at 3.20%. Lease payments of \$2,239 are due monthly on the 9th through October 9, 2021.

Mack Truck: On May 3, 2017, the City entered into a five-year lease purchase agreement for a Mack Truck in the amount of \$242,723, bearing interest at 3.02%. Lease payments of \$51,475 are due annually on the 10th of January through January 10, 2021.

Fire Tactical Tender: On September 4, 2018, the City entered into a seven-year lease purchase agreement for a Fire Tactical Tender in the amount of \$174,900, bearing interest at 5.24%. Lease payments of \$28,971.50 are due annually on the 1st of October through October 1, 2024.

Mack Truck: On October 22, 2020, the City entered into a five-year lease purchase agreement for a Mack Truck in the amount of \$212,959, bearing interest at 3.5%. Lease payments of \$45,571 are due annually on the 22nd of October through October 22, 2024.

Future lease payments for the City are as follows:

	F	Principal		Interest		Total
2021	\$	141,297	\$	13,145	\$	154,442
2022		65,959		8,584		74,543
2023		68,700		5,843		74,543
2024		71,558		2,984		74,542
Total	\$	347,514	\$	30,556	\$	378,070

Interest expense, as functionally allocated, for the year ended December 31, 2020 is:

	nterest opense
Governmental activities:	
Public safety	\$ 7,263
Public works	4,147
Total	\$ 11,410

IV. Detailed Notes on all Funds (continued)

E. Long-term Liabilities (continued)

1. Capital Leases (continued)

The net book value of the assets acquired through a capital lease is computed as follows at December 31, 2020:

Cost	\$ 1,006,161
Less: accumulated depreciation	(520,507)
Net book Value	\$ 485,654

2. Accrued Compensated Absences

City employees accumulate paid time off ("PTO") based upon their length of employment. All employees are encouraged to use their PTO within the year it is earned. Unused accumulated PTO is payable to employees upon termination, subject to certain maximum limits. Therefore, a liability for unused paid time off is shown on the City's government-wide financial statements.

3. Changes in Long-term Liabilities

Long-term liability activity for the year ended December 31, 2020, was as follows:

	В	eginning					Ending	Dι	ıe Within
		Balance	Α	dditions	R	eductions	Balance	0	ne Year
Capital leases	\$	295,652	\$	212,959	\$	(161,097)	\$ 347,514	\$	141,297
Compensated absences		98,031		17,515		-	115,546		-
Net pension (asset) liability		294,163		-		(289,328)	4,835		_
Total	\$	687,846	\$	230,474	\$	(450,425)	\$ 467,895	\$	141,297

These liabilities are generally liquidated by the General Fund and the Fire Operations Fund.

F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

1. FPPA Statewide Defined Benefit Plan

Plan Description: The Plan is a cost-sharing multiple-employer defined benefit pension plan covering substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978 (New Hires), provided they are not already covered by a statutorily exempt plan. As of August 1, 2003, the SWDB may include clerical and other personnel from fire districts whose services are auxiliary to fire protection.

IV. Detailed Notes on all Funds (continued)

- F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)
 - 1. FPPA Statewide Defined Benefit Plan (continued)

Contributions: Determined by state statute or by election of the members, contributions are set at a level that enables all benefits to be fully funded at the retirement date of all members. Effective January 1, 2021, the FPPA Board of Directors, upon approval through an election by both the employers and members, may increase contribution rates for employers and members equally. Employers and employees are contributing at a rate of 8% and 10.5%. respectively, of base salary for a total contribution rate of 18.5% through 2019. In 2014, the members elected to increase the member contribution rate 0.5% annually from 2015 through 2022 to a total of 12% of base salary. Employer contributions will remain at 8% resulting in a combined contribution rate of 20% in 2022. Contributions from members and employers of plans re-entering the system are established by resolution and approved by the FPPA Board of Directors. The re-entry group has a combined contribution rate of 22.5% and 23% of base salary through 2019 and 2020, respectively. It is a local decision on who pays the additional 4% contribution. Per the 2014 member election, the reentry group will also have their required member contribution rate increase 0.5% annually beginning in 2015 through 2022 for a total combined member and employer contribution rate of 24%. Effective January 1, 2021, reentry departments may submit a resolution to the FPPA Board of Directors to reduce the additional 4% contribution, to reflect the actual cost of reentry by department, to the plan for reentry contributions. Each reentry department is responsible to remit contributions to the plan in accordance with their most recent FPPA Board of Directors approved resolution

Benefits: On May 23, 1983, the Colorado Revised Statutes were amended to allow the Trustees of the SWDB to change the retirement age on an annual basis, depending upon the results of the actuarial valuation and other circumstances. The amended statutes state that retirement age should not be less than age 55 or more than age 60. The Trustees subsequently elected to amend the retirement provisions, effective July 1, 1983, such that any member with at least 25 years of service may retire at any time after age 55 and shall be eligible for a normal retirement pension. Effective January 1, 2021, a member may also qualify for a normal retirement pension if the member's combined years of service and age equals at least 80, with a minimum age of 50, known as the Rule of 80.

The annual normal retirement benefit is 2% of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5% for each year of service thereafter. Benefits paid to retired members are evaluated annually and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0% to the higher of 3% or the Consumer Price Index for Urban Wage Earners and Clerical Workers ("CPI-W").

- IV. Detailed Notes on all Funds (continued)
 - F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)
 - 1. FPPA Statewide Defined Benefit Plan (continued)

Benefits (continued): A member is eligible for an early retirement at age 50 with at least 5 years of credited services or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5% as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the SWDB and remain eligible for a retirement pension at age 55 equal to 2% of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5%t for each year of service thereafter.

Net Pension Liability (Asset): At December 31, 2020, the Plan's fiduciary net position is exceeded by the total pension liability; consequently the City reported assets of \$48,603 and \$29,598 for its proportionate share of the net pension asset for fire and police respectively. The net pension asset was measured as of December 31, 2019, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2020. The City's proportion of the net pension asset was based on City contributions to the Plan for the calendar year 2019 relative to the total contributions of participating employers to the Plan.

At the December 31, 2019 and 2018 measurements, the City's proportions for fire and police were as follows:

	Proportion	Proportionate Share				
	2020	2019				
Fire	0.085939%	0.081754%				
Police	0.052333%	0.045541%				

For the year ended December 31, 2020, the City recognized net pension (revenue) or expense of \$(7,966) and \$(3,752) for fire and police respectively.

IV. Detailed Notes on all Funds (continued)

F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

1. FPPA Statewide Defined Benefit Plan (continued)

Net Pension Liability (Asset) (continued): At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Fire				Police			
	Deferred Outflows of		Deferred Inflows of		Deferred Outflows of		Deferred Inflows of	
	R	esources	Re	esources	Re	esources	Re	sources
Difference between expected and								
actual experience	\$	164,486	\$	951	\$	100,165	\$	579
Change of assumptions or other inputs		92,289		-		56,199		-
Net difference between projected and actual								
earnings on pension plan investments		-		76,407		-		46,528
Changes in proportionate share of contributions		33,012		24,295		18,050		19,709
Contributions subsequent to measurement date		52,186		-		30,569		-
	\$	341,973	\$	101,653	\$	204,983	\$	66,816

Contributions subsequent to the measurement date of December 31, 2019 – which are reported as deferred outflows of resources related to pensions – will be recognized as a reduction of the net pension liability in the fiscal year ending December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended	Amortization			
December 31,		Fire		Police
2021	\$	18,138	\$	10,937
2022		11,521		6,908
2023		36,378		22,044
2024		4,137		2,411
2025		36,964		22,100
thereafter		80,996		43,198
	\$	188,134	\$	107,598

IV. Detailed Notes on all Funds (continued)

F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

1. FPPA Statewide Defined Benefit Plan (continued)

Actuarial assumptions: The collective total pension liability and actuarially determined contributions in the December 31, 2019 actuarial valuation were determined using the following actuarial assumptions and other inputs:

	Total Pension	Actuarially Determined
Actuarial Assumptions	Liability	Contributions
Actuarial Valuation Date January 1,	2020	2019
Actuarial method	Entry Age	Entry Age
	Normal	Normal
Amortization Method		Level % of
	N/A	Payroll, open
Amortization Period	N/A	30 years
Long-term investment Rate of Return	7.0%	7.0%
Projected Salary Increases	4.25% - 11.25%	4.25% - 11.25%
Cost of Living Adjustments (COLA)	0%	0%
Includes inflation at	2.50%	2.50%

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2018 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2019. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

IV. Detailed Notes on all Funds (continued)

F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

1. FPPA Statewide Defined Benefit Plan (continued)

Actuarial assumptions (continued): The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5%). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2019 are summarized in the following table:

			Long Term
		Target	Expected
Asset Class		Allocation	Rate of Return
Global Equity		38.00%	7.00%
Equity Long / Short		8.00%	6.00%
Private Markets		25.00%	9.20%
Fixed Income		15.00%	5.20%
Absolute Return		8.00%	5.50%
Managed Futures		4.00%	5.00%
Cash		2.00%	2.52%
	Total	100.00%	

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the SWDB plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate: Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

IV. Detailed Notes on all Funds (continued)

F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

1. FPPA Statewide Defined Benefit Plan (continued)

Discount Rate (continued): For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 2.75% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00%.

Sensitivity of the City's proportionate share of the net pension liability (asset) to changes in the discount rate: The following presents the proportionate share of the net pension liability (asset) calculated using the discount rate of 7.00%, as well as what the proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

		Decrease (6.0%)		ent Discount ite (7.0%)	1%	(8.0%)
Collective net pension liability (asset)	\$ 34	42,913,305	\$ (56,556,341)	\$ (3	87,863,540)
Proportionate share of net pension liability (asset):						
Fire Police	\$ \$	294,697 179,457	\$ \$	(48,603) (29,598)	\$ \$	(333,327) (202,981)

Pension plan fiduciary net position: Detailed information about the Plan's fiduciary net position is available in FPPA's comprehensive annual financial report, which can be obtained at: http://www.fppaco.org/annual-reports.html.

2. Agent Fire "Old Hire" Pension Plan

Plan Description: The City is trustee of a single employer defined benefit pension plan available to provide retirement income for all fire fighters hired before April 8, 1978 ("old hires") in recognition of their service to the City. FPPA administers an agent multiple-employer Public Employee Retirement System ("PERS"). The PERS represents the assets of numerous separate plans that have been pooled for investment purposes. The pension plans have elected to affiliate with FPPA for plan administration and investment only. FPPA issues a publicly available comprehensive annual financial report that can be obtained at http://www.fppaco.org/annual-reports.html.

IV. Detailed Notes on all Funds (continued)

- F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)
 - 2. Agent Fire "Old Hire" Pension Plan (continued)

Plan Description (continued): The plan provides normal retirement benefits, severance, and death and disability benefits. Normal retirement benefits begin at 50 years of age and upon completion of 18 years of service and include monthly pension equal to one-half of his monthly salary at the date of his retirement. For severances, firefighters have the option to refund their contribution with 5% annual interest, or to receive deferred retirement pensions equal to one-half their monthly salary if they meet the age and service requirements of the normal retirement benefit. If a firefighter eligible to receive or is receiving benefits dies in retirement, the surviving spouse shall receive, until death or remarriage, a monthly pension equal to one-half the monthly pension the firefighter was entitled to receive. There are no vested retirement benefits. As of January 1, 2020, the latest actuarial valuation date, there were 0 active members, 0 service retirees and 3 retirees and beneficiaries.

Funding Policy: The funding of the plan by the City and members is authorized by the Board of Trustees. The contribution by the State of Colorado (the "State") toward fire pension funds has been a fixed dollar amount established by the legislature and allocated pro rata to all fire pension funds in the State who apply for State matching funds, based upon the amounts contributed by the employer up to a maximum of one half (1/2) mill on the assessed valuation or 90% of City contributions, whichever is less. Since the City currently offers maximum retirement benefits in excess of \$300 per month, the State will match at the level determined above but no greater than the maximum of: (1) the amount necessary to fund a pension of \$300 per month on an actuarially sound basis, and (2) the amount of State contributions provided in the prior year.

Net Pension Liability: At December 31, 2020, the old hire pension fund reported a net pension liability of \$83,036. The net pension asset was measured as of December 31, 2019, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2020.

F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

2. Agent Fire "Old Hire" Pension Plan (continued)

Actuarial Assumptions: The significant actuarial assumptions used in the valuation as of January 1, 2018 were:

Actuarial cost method Entry Age Normal
Amortization method Level Dollar, Open*

Remaining amortization period 17 Years*

Asset valuation method 5-Year smoothed fair value

Inflation2.50%Salary increasesN/AInvestment rate of return7.50%

Retirement age Any remaining actives are assumed

to retire immediately.

Mortality Post-retirement: For ages less than 55, RP-2014 Mortality Table

for Blue Collar Employees. For ages 65 and older,

RP-2014 Mortality Tables for Blue Collar Healthy Annuitants.

For ages 55 through 64, a blend of the previous tables. All tables are projected with Scale BB.

Disabled (pre-1980): RP-2014 Disabled Generational Mortality Table generationally projected with Scale BB with a minimum 3% rate

for males and 2% rate for females.

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) the long-term expected rate of return on pension plan investments (4.50%), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (2.75%) to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits. The resulting Single Discount Rate is 4.50%.

Regarding the sensitivity of the net pension liability/(asset) to changes in the Single Discount Rate, the following represent the plan's net pension liability/(asset), calculated using a Single Discount Rate of 4.50%, as well as what the plan's net pension liability/(asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

	1%	Decrease	Curre	nt Discount	1% Increase		
		(3.50%)	Rate (4.50%)		(5.50%)		
Net pension liability (asset)	\$	101,234	\$	83,036	\$	67,087	

^{*}Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

F. Pension (Assets) Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

2. Agent Fire "Old Hire" Pension Plan (continued)

In connection with the City's Old Hire Pension Plan, the following deferred outflow of resources and deferred inflows of resources were reported at December 31, 2020:

	Ou	eferred atflows of esources	Deferred Inflows of Resources		
Net difference between projected and actual earnings on pension plan investments Contributions subsequent to measurement date	\$	- 15,582	\$	1,018	
	\$	15,582	\$	1,018	

Contributions subsequent to the measurement date of December 31, 2019, which are reported as deferred outflows of resources related to pensions, will be recognized as a reduction of the net pension liability in subsequent years. Other amounts reported as deferred outflow of resources and deferred inflow of resources related to pensions will be recognized as a component of pension expense in future years as follows:

Year Ended				
December 31,	Amortization			
2021	\$	(117)		
2022		(704)		
2023		861		
2024		(1,058)		
	\$	(1,018)		

G. Other Payroll Obligation - Police Chief Retirement Benefit Obligation

The City has one retired police chief who is covered by an agreement to provide retirement benefits. The benefit provides approximately \$30,000 in annual payments. In 2020 the City has set aside \$68,714 to provide this benefit. The City has not completed recurring actuarial evaluations one beneficiary receiving benefits who is age 86 as of December 31, 2020. No other City employees currently participate or will participate in the plan in the future as all employees hired after April 8, 1978, are covered by a FPPA "new hire" pension plan.

The payment is based upon 65% of the average salary received one year before retirement, with an adjustment of 3% of such average salary for each year of service completed in excess of 22 years, up to a maximum of 100% of such policemen's average salary.

The City has recorded this amount as restricted cash and a liability as accrued expenses in the General Fund.

V. Other Information

A. Pension Plans

1. Deferred Compensation Plan

The City offers its full time, year-round employees a deferred compensation plan created in accordance with section 457 of the Internal Revenue Code (the "457 Plan"). The 457 Plan permits eligible employees to defer a portion of their salary until future years.

All compensation deferred under the 457 Plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are to be held in trust for the exclusive benefit of the participants and their beneficiaries. Compensation deferred under the 457 Plan is not available to employees until termination, retirement, death, or unforeseeable emergency.

The City matches employee contributions at a minimum rate of 1% for all City employees with up to 5% match for fire and police personnel and up to 6% match for other City employees.

The City contributed \$41,355 for the year ended December 31, 2020

Investment decisions within the 457 Plan are determined by the individual participants and, therefore, the 457 Plan's investment concentration varies between participants.

The City is the Trustee of the 457 Plan and, accordingly, has no liability for losses under the plan. However, the City does have the duty of due care that would be required of an ordinary prudent investor. Consequently, the 457 Plan is not part of the City's financial statements.

2. Statewide Death and Disability Plan

Plan Description: Firefighters and police of the City contribute to the Statewide Death and Disability Plan ("SWDD"). The SWDD is a cost-sharing multiple-employer defined benefit death and disability plan administered by FPPA. Contributions to the SWDD are used solely for the payment of death and disability benefits. The SWDD was established in 1980 pursuant to Colorado Revised Statutes.

SWDD benefits provide 24-hour coverage for both on- and off-duty members not eligible for normal retirement under a defined benefit plan, and members who have not met 25 years of accumulated service and age 55 under a money purchase plan.

V. Other Information (continued)

A. Pension Plans (continued)

2. Statewide Death and Disability Plan (continued)

Plan Description (continued): In the case of an on-duty death, benefits may be payable to the surviving spouse or dependent children of active members who were eligible to retire but were still working. Death and disability benefits are free from state and federal taxes in the event that a member's disability is determined to be the result of an on-duty injury or an occupational disease.

Funding Policy: Prior to 1997, the SWDD was primarily funded by the State of Colorado (the "State"), whose contributions were established by Colorado statute. In 1997, the State made a one-time contribution of \$39,000,000 to fund past and future service costs for all firefighters and police officers hired prior to January 1, 1997. No further State contributions are anticipated.

The SWDD is funded by member or on-behalf of member contributions. Members hired on or after January 1, 1997, began contributing 2.4% of base salary to the SWDD. Contributions may be increased 0.1% biennially by the FPPA Board. The contribution rate increased to 2.8% of base salary as of January 1, 2019. This percentage can vary depending on actuarial experience. All contributions are made by members or on behalf of members.

The 2.8 percent contribution may be paid entirely by the City or member, or it may be split between the City and the member as determined at the local level. The City's members paid \$29,111 to the SWDD at December 31, 2020.

FPPA issues a publicly available comprehensive annual financial report which includes additional information on the SWDD. That report can be obtained at https://www.fppaco.org/annual-reports.html.

B. Risk Management

1. Colorado Intergovernmental Risk Sharing Agency

The City is exposed to the risks of loss related to torts; theft of, damage to, and destruction of assets; general property liability and errors and omissions. To address such risks, the City is a participant in a public entity risk pool administered by Colorado Intergovernmental Risk Sharing Agency ("CIRSA").

CIRSA's operations are funded by contributions from member governments. Coverage is provided in the amount of \$500,000 per claim or occurrence for property, \$100,000 per claim/annual aggregate public relations and security breach, \$1,000,000 per claim or occurrence for liability, \$1,000,000 for public officials' liability, \$500,000 each claim/annual aggregate security and privacy liability, and \$150,000 per claim or occurrence for crime. CIRSA has also acquired additional excess coverage from outside sources. While the City may be liable for any losses in excess of this coverage, the City does not anticipate such losses at December 31, 2020. The deductible amount paid by the City for each incident in 2020 was \$1,000. All settlements for the year-ended December 31, 2020 were under the maximum coverage allowed.

V. Other Information (continued)

B. Risk Management (continued)

1. Colorado Intergovernmental Risk Sharing Agency (continued)

Surpluses or deficits realized by CIRSA for any given year are subject to change for such reasons as interest earnings on invested amounts for those years and funds, re-estimation of losses for those years and funds, and credits or distributions from surplus for those years and funds.

The City's share of CIRSA's assets, liabilities, and fund equity as of December 31, 2020, (the latest year for which audited data is available) is as follows:

Property and Casualty Pool:	Equity Ratio
Operating Fund	0.1283%
Loss Fund	0.1545%
Excess Fund	0.0708%
Reserve Fund	0.3228%

CIRSA's combined financial information for the year ended December 31, 2020, is summarized as follows:

Assets:

Cash and investments	\$ 85,609,779
Other assets	8,563,951
Total assets	94,173,730
Total liabilities	35,750,846
Net position	\$ 58,422,884
Total revenues	\$ 33,496,772
Total expenses	(24,091,402)
Change in net position	\$ 9,405,370

A copy of CIRSA's audit report can be obtained by writing to CIRSA, 3665 Cherry Creek North Drive, Denver, CO 80209, or by calling (800)-228-7136.

2. Workers' Compensation

The City is exposed to various risks of loss related to workers' compensation. The City has acquired commercial coverage for this risk and any settled claims are not expected to exceed the commercial insurance coverage. There is no change in coverage from past years, and settlements have not exceeded coverage for each of the past three fiscal years.

V. Other Information (continued)

C. Commitments and Contingencies

1. Legal Claims

During the normal course of business, the City may incur claims and other assertions against it from various agencies and individuals. Management of the City and their legal representatives feel none of these claims or assertions are significant enough that they would materially affect the fairness of the presentation of the financial statements at December 31, 2020.

2. Federal and State Grants and Financial Sources

The City receives financial assistance from federal and state governmental agencies in the form of grants and operating agreements. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the agreements and may be subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of the City, any such disallowed claims would not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the City at December 31, 2020.

D. Agreements

1. Lake County - Shared Fire Protection Services

In accordance with an intergovernmental agreement with Lake County, Colorado ("County"), the County reimburses the City for 70% of the City's fire protection expenditures. The County's share of fire protection expenditures totaled \$872,617 for the year ended December 31, 2020.

2. Lake County - Shared Animal Shelter Services

The County and City equally share all costs associated with the construction and maintenance of an animal shelter as per the intergovernmental agreement. The City is responsible for providing staffing of 12 hours per week for the animal shelter via the City's Police Department. The County's share of animal shelter costs totaled \$60,767 during 2020.

3. County Health Pool

In 2004, the City entered into an agreement with the County Health Pool for administration of a health insurance program for all full-time non-elected City employees. Under this agreement, the City must purchase and pay for 50% of the employees' health insurance premiums (the City is currently paying 75%), and 100% of employees' group life insurance premiums must be purchased by the City. Employees are eligible for coverage after 30 days of continuous full-time employment.

V. Other Information (continued)

D. Agreements (continued)

4. Railyard at Leadville

1. Undergrounding Project

The City entered into agreements during March of 2018 with High Country Developers, L.L.C. ("HCD") and Xcel Energy ("Xcel") for undergrounding electric service lines in the area known as the Railyard at Leadville Project (the "Undergrounding Project"). As of March 2018, the project is estimated to cost \$520,200. The City has a franchise agreement dated September 22, 2014 where Xcel accumulates 1% ("1% Fund") of gross revenue for electrical services within the City to be used for the purposes of undergrounding electric service lines in the City. The City and Xcel have agreed to use \$400,000 of the City's allocated 1% Fund for use at the Railyard at Leadville. The City's agreement with the HCD states HCD will be responsible for any actual cost above the City's \$400,000 allocation of the 1% Fund. In accordance to the agreement the Developer has deposited \$120,200 with the City for the estimated balance necessary to complete the undergrounding project.

2. Mountain View Drive and U.S. Highway 24 Signal Project

In April of 2019 the City entered into agreements with the Colorado Department of Transportation ("CDOT") and HCD for traffic signal replacement and intersection improvements at Mountain View Drive and U.S. Highway 24 (the "Signal Project"). The cost of the Signal Project is currently contracted to be \$1,199,742, to be completed by Technology Contractors, Inc. The cost of the Signal Project will be paid by CDOT reimbursements to the City in the amount of \$592,255 and HCD in the amount of \$607,487. Additionally, since the CDOT funds will provided as reimbursements for completed and approved improvements, HCD will provide advance funds to the City in order for the funding necessary to pay for work on the improvements. This advance funding will be returned to HCD upon receipt of the CDOT reimbursements. Any costs beyond the original estimate will be the responsibility of HCD.

E. Leadville Urban Renewal Authority

The LURA has implemented an Incentive Policy to encourage redevelopment, development, and physical improvement of vacant, underutilized, and deteriorating properties within targeted locations of the city. The LURA and the City may participate in meritorious projects based on need and public benefit. Resources of the LURA and City are to be used to offset extraordinary costs associated with prevailing conditions that may be unfavorable for investment by providing resources to supplement financing of a project. Resources may be allocated via tax increment financing ("TIF"), infrastructure cost participation, relocation assistance, special district partnership, sales tax rebate, when feasible, fee and lien waivers and other miscellaneous incentives as detailed in the Incentive Policy.

V. Other Information (continued)

E. Leadville Urban Renewal Authority (continued)

The LURA and the City have entered into a certain agreement to meet development goals within certain areas of the City. The following areas have continuing development requirements or abatement agreements requiring disclosure entered into in 2020.

Development Area	Revenues Impacted	Governing Document	 Amount	Requirements
Railyard Leadville	Property Tax Increment	Cooperation and Development Agreement	\$ 4,000,000	Earlier of \$4,000,000 percentage shares of incremental property taxes or September 19, 2044.

F. Subsequent event

On June 2, 2020, the City entered into a capital lease agreement with Ford Motor Credit Company, L.L.C., to purchase three vehicles in the amount of \$104,940. The agreement has an interest rate of 5.99% with sixty monthly principal and interest payments of \$2,029. However, the vehicles were not purchased until 2021, due to COVID-19 pandemic delays.

City of Leadville, Colorado Notes to the Required Supplementary Information December 31, 2020

I. Notes to the Schedule of the City's Proportionate Share of the Net Pension (Asset) Liability – Statewide Defined Benefit Plans

A. Changes to assumptions or other inputs

1. Changes Since the January 1, 2018 Actuarial Valuation

For determining the total pension liability, the post-retirement mortality tables for nondisabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

2. Changes Since the January 1, 2017 Actuarial Valuation

No changes.

3. Changes Since the January 1, 2016 Actuarial Valuation

No changes.

4. 2016 Changes Since the January 1, 2015 Actuarial Valuation are as Follows:

Effective January 1, 2016, the post-retirement mortality tables for non-disabled retirees is a blend of the Annuitant and Employee RP-2014 generational mortality tables with blue collar adjustment projected with Scale BB. The occupationally disabled post-retirement mortality assumption uses the same table as used for healthy annuitants, except that is a three-year set-forward, meaning a disabled member age 70 will be valued as if they were a 73-year-old healthy retiree. The totally disabled post-retirement mortality assumption uses the RP-2014 generational mortality tables for disabled annuitants, except an additional provision to apply a minimum 3% mortality probability to males and 2% mortality probability for females is included to reflect substantial impairment for this population. The pre-retirement off-duty mortality tables are adjusted to 55% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00020.

5. 2015 Changes Since the January 1, 2014 Actuarial Valuation are as Follows:

For determining the total pension liability, the RP-2014 Mortality Tables for Blue Collar Employees, projected with Scale BB, 55 percent multiplier for off-duty mortality is used in the valuation for off-duty mortality of active members. Onduty related mortality is assumed to be 0.00020 per year for all members of post-retirement benefits for members under age 55. For post-retirement members ages 65 and older, the RP-2014 Mortality Tables for Blue Collar Healthy Annuitants, projected with Scale BB are used.

B. Changes of benefit terms

No changes during the years presented.

C. Changes of size or composition of population covered by benefit terms

No changes during the years presented.

City of Leadville, Colorado Notes to the Required Supplementary Information December 31, 2020 (Continued)

II. Notes to the Schedule of City's Contributions – Statewide Defined Benefit Plans

A. Changes to assumptions or other inputs

No changes during the years presented.

B. Changes of benefit terms

No changes during the years presented.

C. Changes of size or composition of population covered by benefit terms.

No changes during the years presented.

III. Notes to the Schedule of Changes in Net Pension (Asset) Liability - Fire "Old Hire" Plan

A. Changes to assumptions

 2015 Changes Since the January 1, 2014 Actuarial Valuation are as Follows:

The inflation assumption was reduced from 3.0% to 2.5%.

Post-retirement mortality assumptions: For ages less than 55, RP- 2014 Mortality Tables for Blue Collar Employees. For ages 65 and older, RP-2014 Mortality Tables for Blue Collar Healthy Annuitant. For ages 55 through 64, a blend of the previous tables. All tables are projected with Scale BB.

Disabled (pre-1930) mortality assumptions: RP-2014 Disabled Generational Mortality Table generationally projected with Scale BB with a minimum 3% rate for males and 2% for females.

B. Changes of benefit terms

No changes during the years presented.

C. Changes of size or composition of population covered by benefit terms.

No changes during the years presented.

IV. Notes to the Schedule of City Contributions – Fire "Old Hire" Plan

A. Changes to assumptions

1. 2015 Changes Since the January 1, 2014 Actuarial Valuation are as Follows:

The asset method valuation approximates smoothing over a five-year period by recognizing 20% of the difference between the projected actuarial value and the market value at the valuation date. The remaining amortization period is 17 years.

Disabled (pre-1980) mortality assumptions: RP-2000 Disabled Mortality Table generationally projected with Scale AA.

City of Leadville, Colorado Notes to the Required Supplementary Information December 31, 2020 (Continued)

- IV. Notes to the Schedule of City Contributions Fire "Old Hire" Plan (continued)
 - B. Changes of benefit terms

No changes during the years presented.

C. Changes of size or composition of population covered by benefit terms.

No changes during the years presented.
